Editors Dispatch: We congratulate Richmond upon the grand civic and military display upon the inauguration of Governor Holliday. What is the use of being always down in the depths?" We are a Holliday man, and are glad to know that he is determined to pay the State debt. If he could purchase the relidjusters for what they are really worth and sell them for what they (have the vanity to) think they are worth, he would make a speculation that would not only pay the debt of Virginia, but the debt of the entire nation. We do not know who writes the edito-

rials for the Dispatch (i. e., which of its werthy editors), but he is doing a good We were amused at the idea of those little fellows in the Legislature trying to capture the new Governor. As well expect a flotilla of chestnut-hulls to sink an ironclad, or, changing the figure, to compare the solemn notes of the melancholy bull-frog to the "pealing anthem" of "the morning stars." That's "the kind of man" the new Governor is. If he would appoint us a colonel we would go down to Richmond and, with one foot on the pedestal of Jackson's statue and the other on the flowing mane of Washington's warcharger, we would seize every forcible charger, we would seize every forcible readjuster and fling him to the island of Juan Fernande. It seems that our grand old State, like Samson of old, has placed her head in a Delilah's lap, and the Barbour is ever ready to shear the locks of ber beauty and strength. But with the voice of a Hoiliday to remind her of impending danger the green withes of repudiation and the new ropes of forcible readjustment will be broken "so quick it'll make your head swim." The suggestion of the Dispatch to give all the forcible readjusters fat offices would be a good way to stop their clamor about the debt; but if they could be transported to Herculaneum and Pompeii to enjoy the benefits of a sudden irruption of Vesuvius, perhaps some enterprising ex- 8 8 8 cavator about six thousand years hence might be able to find the Committee on Finance ready to report a feasible plan for the payment of the State debt.

The only objection we have to the Dispatch is that it takes too much notice of the disturbers of the public peace. Let them 'severely alone," and they will soon be buried so deep that "the hand of resurrection will never reach them." Your paper is now a power in Virginia. It is doing much to vitalize and energize a sentiment that will make the dear old State walk in grandeur from the very shadows of gloom.

The editors of the West Point Star have beer sued in this county in libel-damages, \$10,000. THE MOFFETT CASES .- The Corporation Court-room has been the central point of interest for the past two days, owing to the trial there of the recent indictments for vio-lation of the Moffett liquor-law.

Some amusement was created yesterday when the case against Sefer Blouse came up by the fact of the accused defending himself without the intervention of a lawyer. It was shown in the evidence that he had not only registered drinks, but even horse-cakes, cigars, matches, and soap. So plain and evidently true was Blouse's statement that the jury found a verdict of not guilty, without leaving their seats .- Alexandria Ga-

COLD (LITHIA) WATER AGAINST HOT WATER IN EHEUMATIC GOUT.

CASE OF DR. E. C. BARRETT, A PROMINENT PHYSICIAN OF JERUSALEM, SOUTH-AMPTON COUNTY, VA.

OF NOVEMBER 17, 1877.

Last summer I had a very severe attack of Rhen-"Last summer I had a very severe attack of kneumatic Gout, from which I suffered all the concomitants of so grave agmalady. I was bed-ridden, became extremely emaciated with active, inflammatory fever, swollen and highly-painful and sensitive joints; all of which made me a belpless and confirmed invalid. During a painful and protracted illness I resorted to every rational treatment conceivable without material benefit, when the LITHIA WATER No. 2 was suggested to me, and I commenced the use of it. I had used it but a few days before its peculiar salutary effects began to be de-\$1.04.

Its first impression was made upon the kidneys. After this the secretions generally became aroused. My skin, which had been constantly as dry, as parchment, assumed a soft and moistened condition, and my appetite, of which there had been a total failure, revived to a healthy eraying for tood. I have continued to take the WATER (three continued to take the WATER (three

lood. I have continued to take the WATER (three goblets a day), and have now no traces whatever of my original complaint, and I am as firm and elastic as any man of my age."

Dr. Barrett attributes the "wonderful curative properties of the BUFFALO LITHIA WATER" to their great power as a solvent of uric acid; "that the blood becoming neutralized of that generally pervading poison, all of the emunctories of the system are set to work in the elimination of extraneous substances."
